

NOTICE TO MARINERS

Lowestoft – Bascule Bridge - Overnight Road and Marine Closures

UTC ☒ BST ☐

Mariners and Port-Users are advised that essential maintenance is scheduled for Lowestoft Bascule Bridge as follows:-

Sun 16th November, Mon 17th November, Tues 18th November, Wed 19th November, Thurs 20th November (last date scheduled as a contingency should works over run)

On each night the Bridge will be closed to both road traffic and Marine traffic between 2000hrs to 0600hrs.

During the Marine closure there will be no small boat openings.

Due to temporary works platforms on the underside of the structure, it will not be possible for small craft to transit underneath the bridge when in the lowered position. It may be possible to allow some small craft transits if the bridge is in the fully raised position.

The closures have been scheduled to minimise disruption to large commercial vessels requiring Bridge Openings over the HW slack tide periods.

All vessel operators and owners are requested to carefully consider requirements, and to schedule vessel transits outside of the closure periods to avoid potential for delay or disruption.

Please contact Lowestoft Port Control, VHF Ch14, Tel. 01502 572286 (Option 3) if further information is required.

Divisional Harbour Master East Anglia
